

# WHAT IS THE Community Hub Food Garden

The Community Hub Food Garden is an open space for the community to grow and share produce that can be appreciated, harvested, and enjoyed by everyone who visits the Rooftop Farm.

From July to December 2023 we will come together twice a month to gather, and participate in free hands-on workshops in the Community Hub Food Garden. These workshops are suited for all ages, all abilities and all skill levels.

The Community Hub Food Garden is a space to learn and practice sustainable food gardening skills and creative activities suited to gardening.
