

Cultivating Community – Corporate and Organisational Volunteer Sessions

Updated March 2023

We welcome corporate and organisational wide volunteer days. They can be a great way to build teams, add strategic value and help a business achieve their ESG [Find out about ESG here!](#)

After first contact with us at Cultivating Community we will work hard to find a time, session and opportunity that fits everyone's agenda and builds on shared values. It may not be instant decisions but will depend on circumstances, needs of our community and the four seasons. You will be introduced to a key contact in our team.

There will be a requirement for the key contact at your organisation to gather relevant compliance information and share it with us prior to the session.

Working With Childrens Checks – all projects – FREE for Volunteers [How to apply | Working with Children](#)

National Police Checks via [Clear to work](#) is \$22 – only for volunteer projects that are immersive with adult groups with vulnerable behaviours.

There is a cost associated with corporate volunteering for Cultivating Community despite the amazing awesome impact that your organisations time provides.

We therefore ask if you haven't donated via another route or provided additional pro bono supply or materials and equipment previously that you donate the following [here](#).

4- 8 people \$280 total

9 -20 people \$525 total

20- 30 people \$775 total

We will provide light refreshments for each session – biscuits, dips and veggies and instant coffee and tea facilities. Many locations have nearby cafes and restaurants if you need a more substantial lunch, and we can also look at additional meeting room bookings for organisation planning depending on the location.
